

# ReQuest

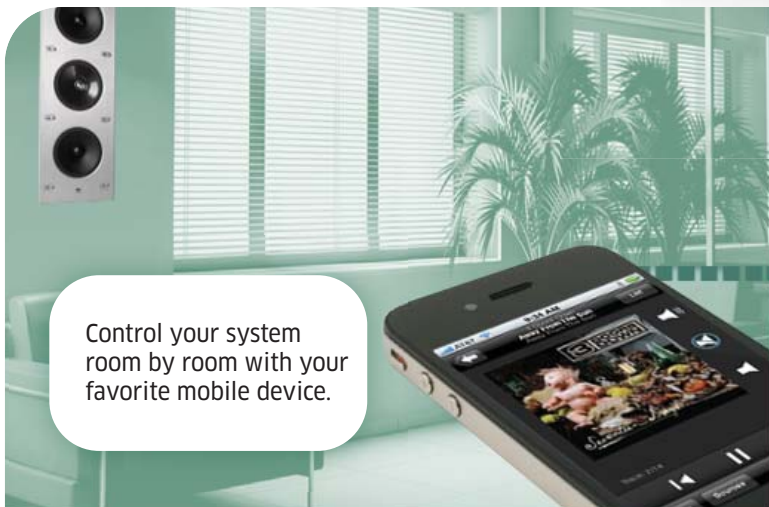

SERIOUS PLAY

## Music in every room

The ReQuest F3 Server is the ultimate solution for family music and entertainment. With support for nearly unlimited NAS storage, F3 can handle your family's entire music collection.

Packing 3 independent zones of analog audio and 1 HD digital output, F3 will let you listen to that collection any way you want. The kids can party with Pandora while mom and dad relax in the living room with some classical music.

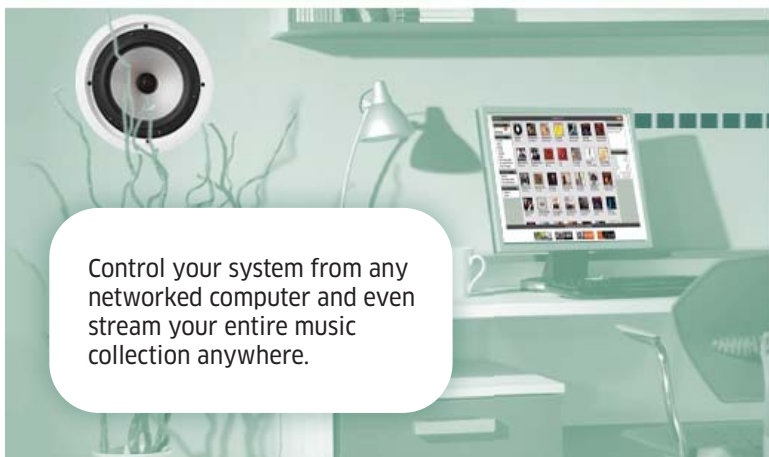

Add a MediaPlayer and the F3 becomes a movie and video powerhouse as well.

Control your system room by room with your favorite mobile device.

2-way feedback and control interfaces are available for an ever growing list of touch screens and control systems.

Control your system from any networked computer and even stream your entire music collection anywhere.

The F3 integrates with a variety of control systems including Crestron and Control4 to provide the brains of a true multiroom solution.
