

Harmony Ideas

Putting the Harmony Commercial Music & Digital Signage system to work for you.

Corporate Communication • Your community - informed and in touch

The larger and more successful your enterprise becomes, the more challenging it can be to keep your entire corporate community in the loop and on the same page. But every cafeteria, breakroom, elevator and hallway provides a venue for you to get them back in the loop.

With Harmony digital signage, it is easy to build your own internal TV station, hammering home the company message and keeping your staff apprised of the kind of news and information that will make them feel a greater connection to the company and their fellow employees.

Create live feeds of company news and updates, promote company events and employee milestones with easily created and professional looking graphics. Incorporate full motion video of current company ad campaigns. Even integrate live news feeds specific to your industry to keep your people sharp and involved.

Electrify your brand and remind everyone that they are an important part of the bigger picture all at the same time.
